Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Reichardt (US 873,784).

Reichardt discloses a fishing reel comprising:

a reel body attachable to a fishing rod, the reel body having right 5 (Fig. 1) and left 1 side plates, and a plate 5 (Fig. 3) connected between the right and left plate to partially from an upper surface of the reel body;

a spool 3 rotatably supported between right and left side plates;

a handle 27 mounted to one of the left and right side plates of the reel body for rotating the spool to wind a fishing line on the spool, a rotation axis of the handle being substantially parallel to rotation axis of the spool; and

an auxiliary operating member 24 for auxiliary winding the fishing line on the spool provided at a position in which the auxiliary operating member can be operated by a finger of an angler's hand holding the fishing rod to which the reel body is attached, wherein the auxiliary operating member is formed so that, when the handle is rotated to rotate the spool, the auxiliary operating member is not rotated in response to the rotation of the handle,

Art Unit: 3654

wherein a one-way clutch (lines 70-94) is interposed between a rotating member 14 where the rotating member is rotated in response to the rotation of the handle 27 and the auxiliary operating member 24,

wherein an operating portion of the auxiliary operating member to be operated by the finger is rotatably provided between the left and right side plates which constitute the reel body, and wherein the operating portion is formed in a lever shape 24, and

wherein the plate 5 is respectively positioned between the auxiliary operating member and a front-end of the reel body, and wherein the operating portion is projected upward from a surface of the plate.

Response to Arguments

Applicant's arguments with respect to claims 1, 2 and 11 have been considered but are moot in view of the new ground(s) of rejection. The amendment to claims 1, "the handle mounted to one of the left and right side plates" necessitated the new grounds of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3654

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
